

**NEW**

## ITEM

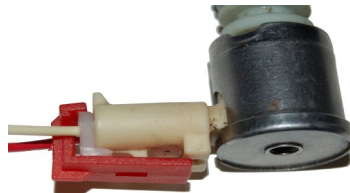

Plastic parts in your transmission can break easily because of the high temperatures they have to endure.

How many times have you replaced a wiring harness because one of the clips to a solenoid breaks?

**Well, NOT ANY MORE...**

Teckpak has come out with a new "Harness Repair Clip" for the GM and Ford wiring harnesses.

Just simply slip a "Repair Clip" over the broken plug and it's fixed.

Clips are color coded for easy identification ...

**Navy** for Ford **#76446UC** (5 per package)

*Fits: AX4S/N, AODE & 4R70W (Soft Wire)*

**Red** for GM **#34446UC** (5 per package)

*Fits: FW/RW 4 speeds & Allison 4 & 5 speeds*
