

YOKE SEAL INSTALLATION KIT

for 350, 375, 700-R4, C4, AOD & AODE

KT3507 Yoke Seal Installation Kit
(includes: 6 yoke seals and free installation tool)
35746YS Yoke Seal

1. Notice the four slots on the top of the yoke seal installation tool (Figure 1).

Figure

Place the yoke seal tines down into the tool.

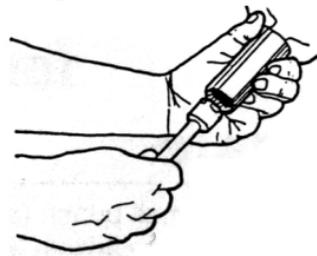

2. Insert the tool with yoke seal attached on the end of a 3/8" extension 6" long.

3. Now push the tool, with seal, into the yoke (Figure 2).

The tool will guide the yoke seal straight down the yoke.

4. Tap the end of your 3/8" extension with a hammer to make final set on the seal.

Figure 2

Part #35746YS, Yoke Seal is available individually wrapped as a single unit.
