## INSTALLATION INSTRUCTIONS

### MS KM A4AF3 SUPER Master Solenoid Kit Fits A4AF3 00-up Accent & A4BF2 01-02 Tiburon

**Note: Fits A4AF3 00-up Accent & A4BF2 01-02 Tiburon 24 OHMS Shifts & 3 OHMS Lock-up TCC & EPC 6 solenoids with Valve Body Harness Assembly.**

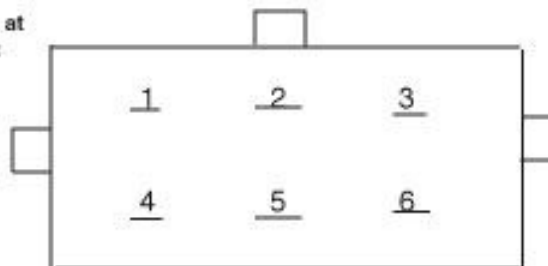

The placement of the solenoids on the valve body are basically reverse of the KM-175 series.

With the manual valve pointing out at you. The three solenoids in a row on your right are,

(from right to left) Shift solenoid B, Shift solenoid A and the Damper Clutch Control solenoid.

The solenoids to the left of the manual valve are from away to close, Shift solenoid C, Pressure Control B solenoid & Pressure Control solenoid A.

The harness plug which ends at the case is pinned as follows:

The chart below can help with any identification questions:

Solenoid	Terminal	Wire Color	Resistance	Operating Voltage	Control Type
Shift C solenoid	1	White	20.8-23.8	12.6-13.4	On/Off
Pressure Control A	2	Black	2.6-3.2	3	DutyCycle
Pressure Control B	3	Blue	2.6-3.2	3	DutyCycle
Shift Solenoid B	4	Yellow	20.8-23.8	12.6-13.4	On/Off
Shift Solenoid A	5	Brown	20.8-23.8	12.6-13.4	On/Off
Damper Clutch	6	Red	2.6-3.2	3	DutyCycle
